

Creative Writing Club

The club started in 2019 and after a brief pause we are excited to come back together. We write stories, poems, and songs both independently and collaboratively. I bring creative writing prompts and challenges to the group and we imagine how they can be developed. *

This year we hope to engage in writing collaborations with other writing communities online. We also will plan and present our work in a showcase to the community and families at the end of the semester.

We meet Tuesdays in Room 807

You can have a parent pick you up or ride the activity bus home at 3:50
